

REMARKS

Claims 40-51 are pending and have been allowed in the present application. This Amendment only amends the Title and Inventorship of the present application. The claims remain unchanged. Applicant respectfully submits that this amendment after allowance is appropriate, and requests entry of the amendment. *See* M.P.E.P. § 714.16.

The title of the application has been amended in order to more appropriately describe the claimed subject matter. Applicant respectfully submits that this amendment does not affect the disclosure or the scope of any claim.

Applicant has also submitted this Amendment concurrently with a Request To Correct Inventorship Under 37 CFR §1.48(b) in order to delete the names of originally name co-inventors who are not inventors of the invention of the pending claims. In the preliminary amendment filed with this divisional application, original method claims 1-39 were canceled without prejudice. As a result, fewer than all of the currently named inventors are the actual inventors of the invention being claimed in the present patent application. Only Arthur W. Zikorus should be named as the inventor, and originally named co-inventors, Mitchel P. Goldman, Robert A. Weiss, and James G. Chandler, should be deleted as inventors.

Please charge the requisite fee under 37 C.F.R. §1.17(i) in the amount of \$130.00 to Deposit Account No. 06-2425. Please charge any additional fees which may be required by this paper or credit any overpayment to Deposit Account No. 06-2425.

Should any question arise, kindly contact the undersigned.

Respectfully submitted,
